Skills

- **Languages:** JavaScript | Java | TypeScript | C++ | C | Python | Swift | Ruby | PHP **Techs:** HTML, CSS, Tailwind
- **Front-End:** React | React Native | Vue | JQuery | Redux
- **Back-End :** Node.js | Express | .NET | Ruby on Rails | Flask | MSSQL | PostgreSQL | MongoDB | CosmosDB | Firebase | NoSQL
- **DevOps/Cloud:** Azure(204) | Docker | Kubernetes | CI/CD | Postman | Gulp | Webpack | Git **Test:** Jest | Mocha | Selenium
- **Methods:** Agile | Scrum | TDD | OOP | Frontend | Backend | Full-Stack | English, Hindi – *All professional proficiency or above*

Experience

Full Stack Developer

Daily Prompt (Intern)

Melbourne, VIC, Aus

01/2023 - Current

- Spearheaded the components segment for the design and development of a React Native mobile app,
- Designed and implemented scalable APIs and background workers for managing efficient fetching patterns.
- Utilized Expo CLI for efficient setup, configuration, and testing, streamlining the development process.
- Enriched system metrics by integrating the platforms with telemetry; facilitated in-depth logging by correlating APIs with vector contexts.
- Continuous Integration/Deployment Pipeline Integration, pull requests, code reviews, load/stress testing, unit/integration/e2e testing

Back End Developer

Klim8 (Project)

Melbourne, VIC, Aus

04/2022 - 04/2023

- Implemented enterprise applications of Klim8 Content Experiment Platforms using **Java, React**, AngularJS, AWS, and DynamoDB.
- Designed and developed systems facilitating marketers to perform various optimisation experiments within the Prime ecosphere.
- Automated and optimised business logic for the core marketing experiments, including A/B, Auto-Targeting, and Multivariate Testing.
- Completely automated the marketing platforms' user-experience testing process by integrating Nightwatch Selenium.

Front End Developer

Hacker News(Project)

Melbourne, VIC, Aus

12/2020 - 03/2021

- Designed and implemented a responsive and intuitive user interface, leveraging vector assets and UITextField to enable users to input location and receive accurate weather data
- Leveraged JSON Decoder to parse and transform the weather data received from the server into a format that could be easily displayed in the app
- Engineering owner of the E2E experience of the commerce platform's cancel, return, and exchange systems (PC/Mobile).
- Integrated multiple third-party systems with the escrow platform, including Alipay, increasing global revenue by 23% in the first quarter.

Education

Bachelor of Business

Deakin University

Melbourne, VIC, Aus

08/2015 - 6/2018

- Major in Marketing and Management

Courses

- **Coursera**, Meta React Native Specialization
- **FreeCodeCamp**, Javascript DSA
- **Azure**, Developer Cert (204)
- **Udemy**, iOS Swift-the complete boot camp series

Projects

- **Cuppastreet:** Created my own start-up: <https://www.cuppastreet.com/>
